WINNER: ☐ PLAYER A ☐ PLAYER B
7

SIGNATURES: _____

PLAYER A

PLAYER B

8

1 Write player name & mark goal box

Write the player's name on the NAME line. Check the 25 (rec) or 50 (pro) box, or write a custom goal on OTHER.

2 Circle each ball as it's pocketed

When a player pockets a ball, circle its number in that rack row. Empty circle = not pocketed. Balls are worth 1 point each.

3 Write # of fouls this rack

Write the number of fouls that player committed during this rack in the FOULS cell. Foul = -1 point.

4 Net = balls circled - fouls

Compute NET at the end of each rack: count circled balls, subtract fouls, write the result in the NET cell.

5 Running = last Running + this Net

RUNNING = the previous rack's RUNNING + this rack's NET. First rack: RUNNING = NET. First to their goal wins.

6 Enter High Run at end of match

HIGH RUN = the most balls circled in a single rack for that player. Write once, at end of match.

7 Check winner + both sign

Check WINNER box for the player who reached their goal first. Both players sign to certify.

8 Photocopy for records; original to Bracket Desk

Keep a photocopy in the match binder; the paper original goes to the Bracket Desk for entry into the app.
